# DEFIBRILLATOR

SAVER  
ONE

 **Maximal energy:**  
Standard max 200J or Power max 360J

 **Waveform:**  
Biphasic truncated exponential (BTE) automatically adapts according to patient's impedance

 **Discharge protocol:**  
Adult Standard : Incremental first shock 150J -subsequent 200J  
Adult Power : Escalating 200J - 250J - 360J  
Paediatric: fixed 50J

 **Warranty:**  
6 years

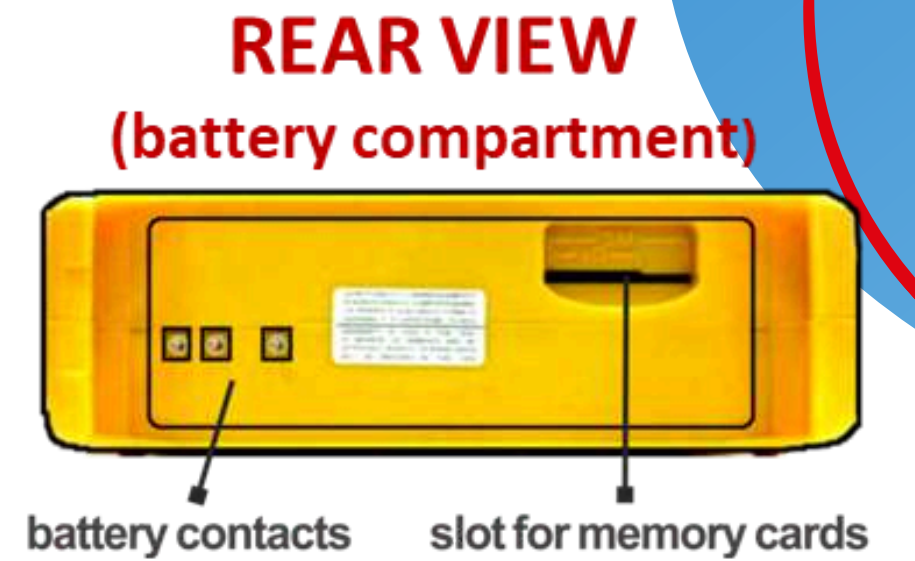

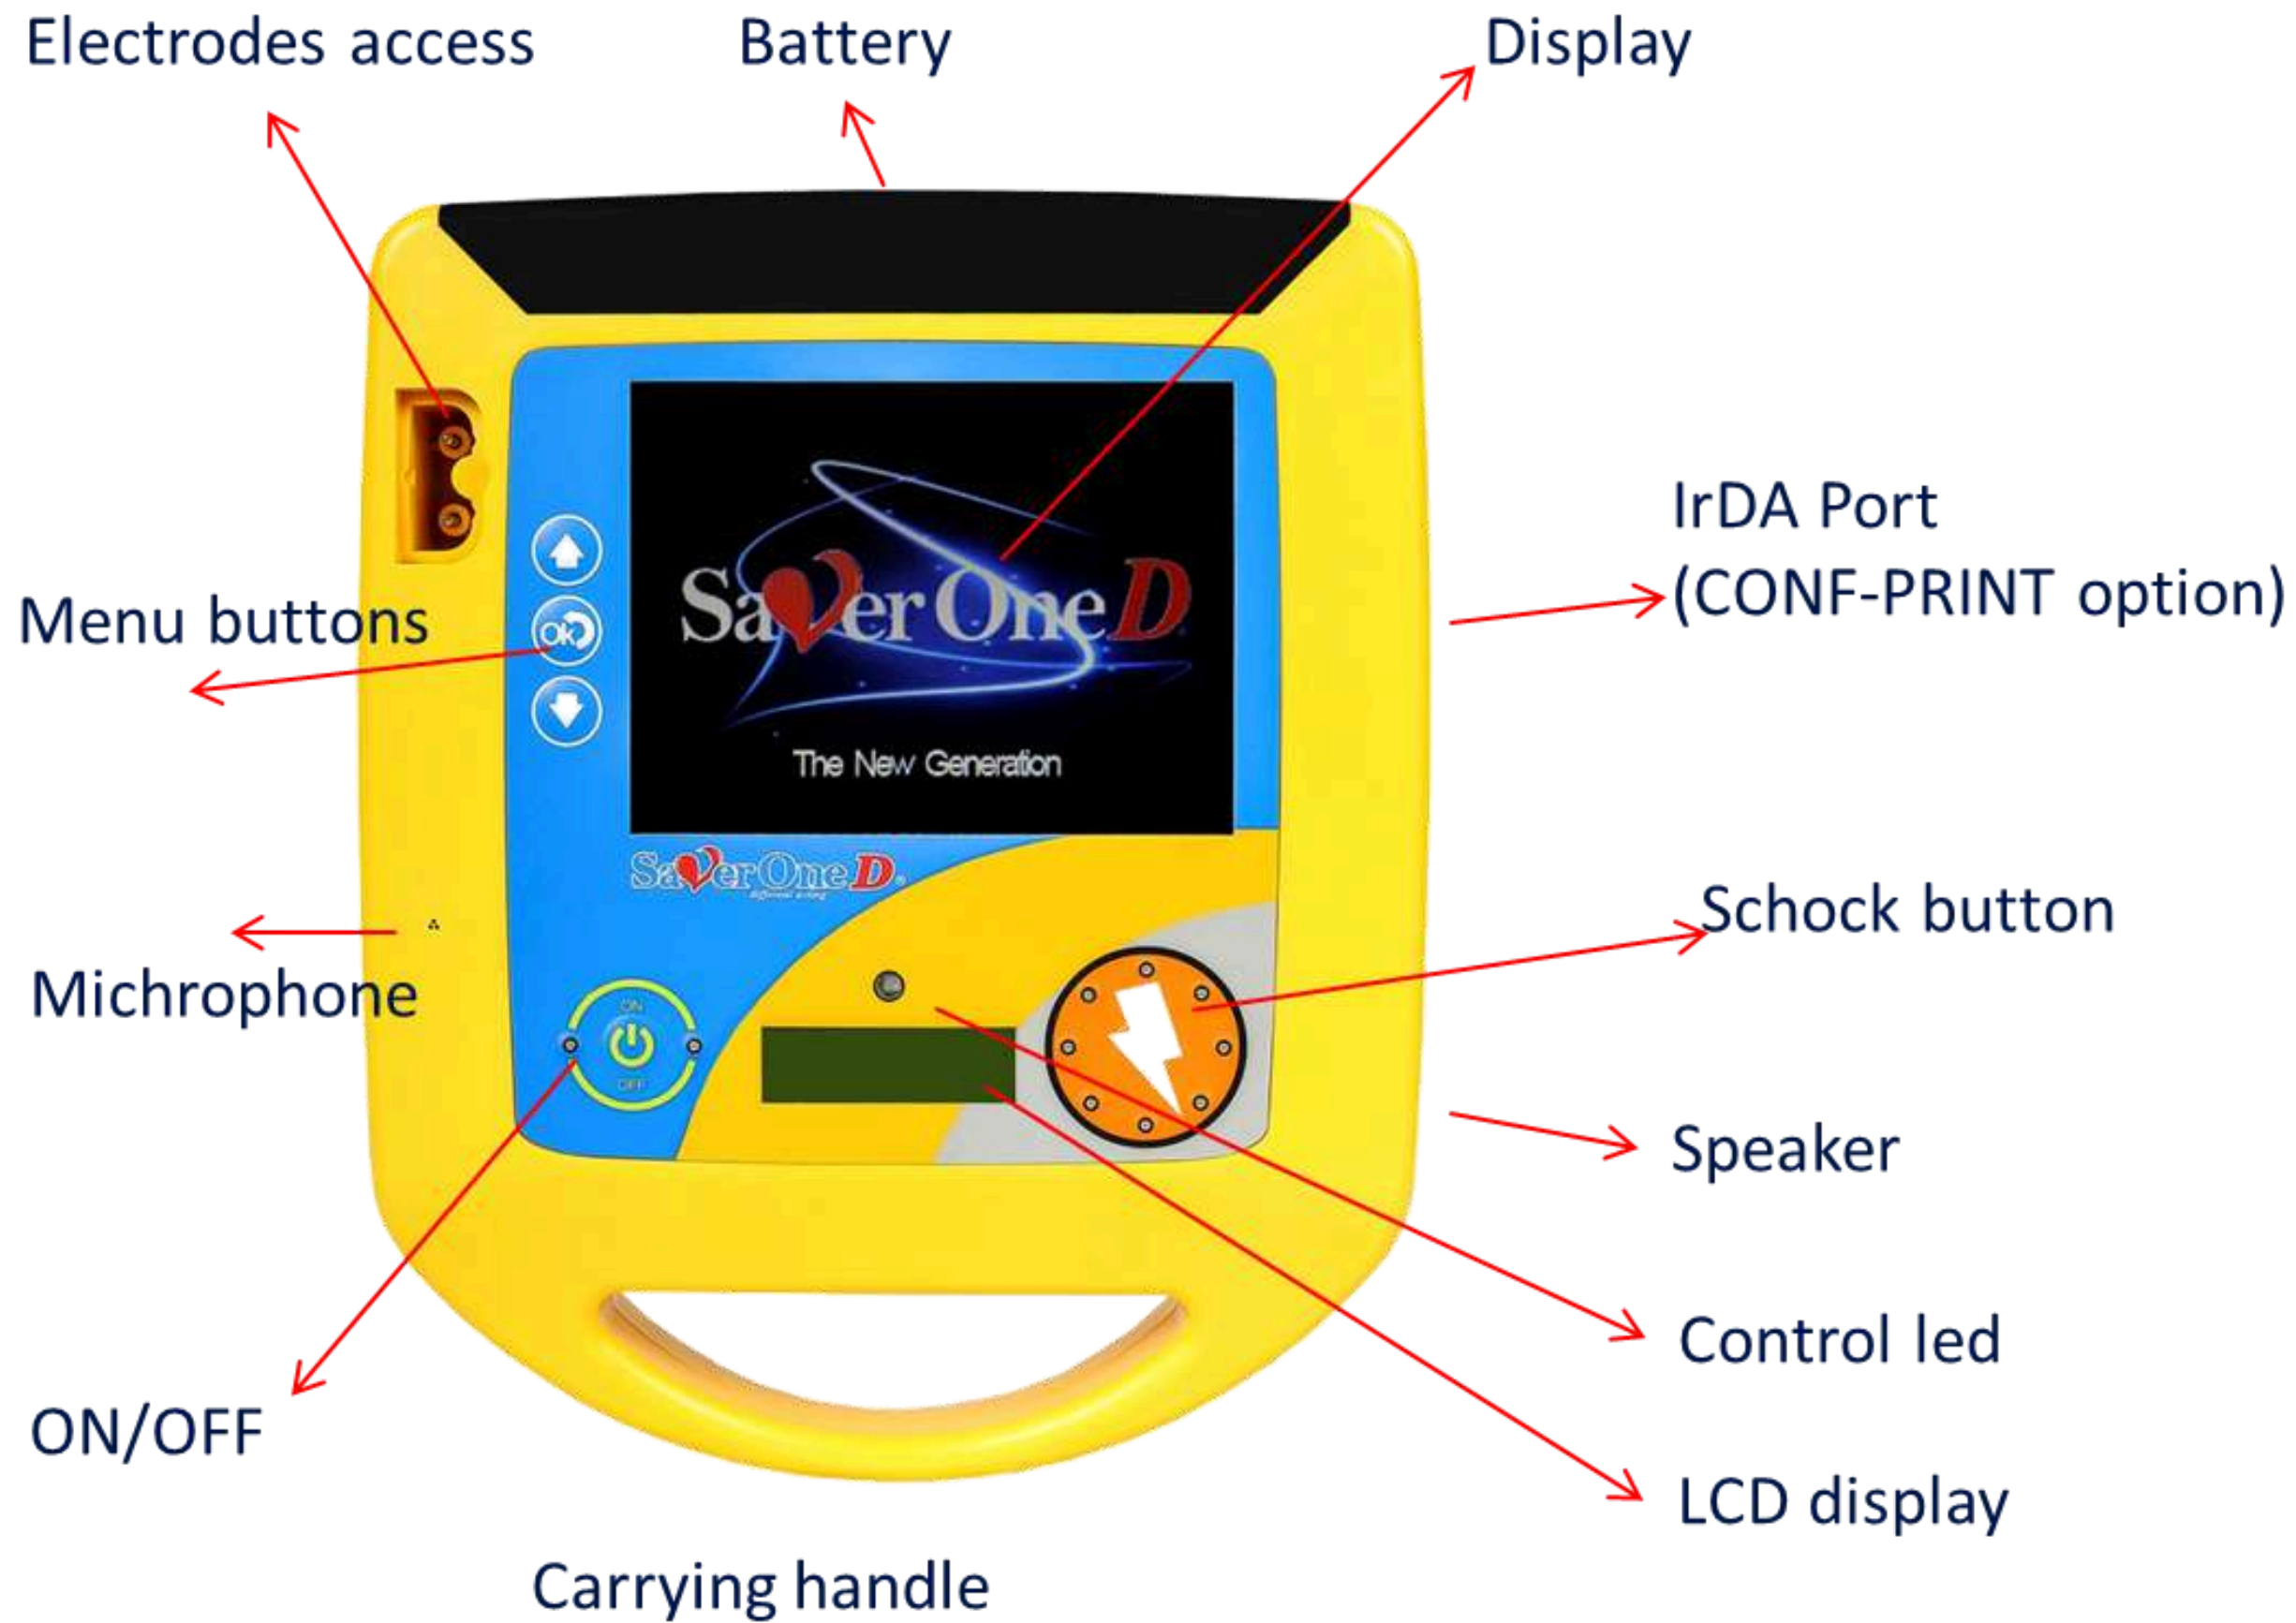

SAVER ONE Semi- Automatic  
SAVER ONE Fully- Automatic

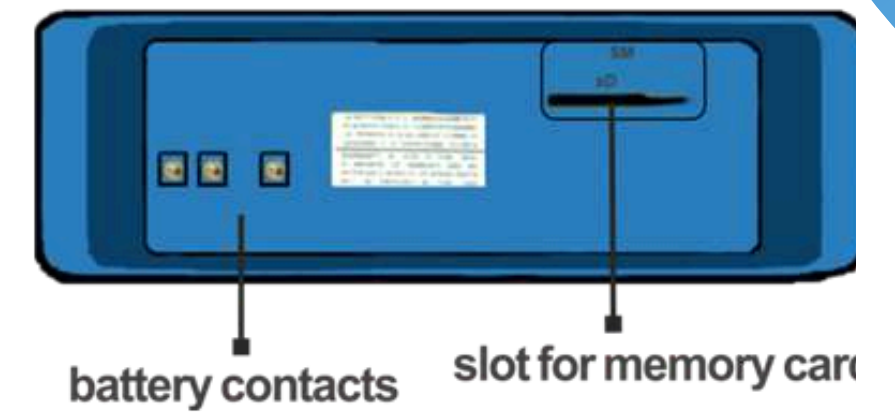

In the fully version the Shock button is replaced by the Auto Shock icon

## **FREE MAINTENANCE**

**Designed to be a totally safe device.  
Able to automatically and constantly check  
the proper operation of its parts  
reducing maintenance operations  
by the user to a minimum.**

### **Three types of self-test:**

- **Activation: On insertion of the battery**
- **Automatic: In stand-by mode, daily/monthly/bi-annually**
  - **On: On the device being switched on**

## MEMORY

—❤ Internal Memory Capacity: 6 hours of environmental audio recording, ECG tracing and events.

—❤ External memory (optional): External SD / SDHC memory cards up to 8GB

The data that can be stored on the SD Card external memory can be divided into two types of files:

- AED1LOG.txt: files generated each time the device is manually switched on and after each automatic self-test performed by the device.
- AEDFILE.aed: data of the rescue, such as environmental recordings (audio), ECG trace, patient data (patient Heart Rhythm and thoracic impedance) and all events of the rescue. The files can be displayed on a PC with the **Saver View Express software** owned by Ami Italia.

## 2 Different defibrillation PADs

### Children model SAV-C0016

- age: <8 years or weight <25Kg
- expiration date: 30 months
- maximum energy level: 50J

### Adults model SAV-C0846

- age: 8 years or weight > 25Kg
- expiration date: 30 months

## BATTERY (SAV-C0903) Non-rechargeable Li-SOCl<sub>2</sub>

- Designed to have a long battery life without maintenance
  - Guaranteed for 4 (four) years assuming a battery activation test, daily self-tests without turning on the AED
- Standard 200J/ 300 **complete rescue cycles** (shocks at 200J. and CPR)
- Power 360J/ 200 complete rescue cycles (shocks at 360J. and CPR)

- Suitable for those who use the defibrillator intensively
  - To be recharged regularly every 4 months
    - Guaranteed for 2 (two) years assuming a battery activation test, daily self-tests without turning on the AED
- Standard 200J/ 250 **complete rescue cycles** (shocks at 200J. and CPR)
- Power 360J/ 160 complete rescue cycles (shocks at 360J. and CPR)

# SaVerOne D<sup>®</sup>

- **Great graphical interface** combined with instructive voice prompts to guide rescuers.
- More alternatives for recording and transfer data: internal memory, removable card, USB, and IrDA Port optional with Print Configuration.
  - **Helpful Menu:** 3 buttons for navigating the software menu.
  - **Monitoring section menu:** management of technical and physiological alarms and signals
  - **Switch/Activate the semi-automatic modes to deliver the shock**
- **5.7" TFT COLOUR DISPLAY**

**Great graphical interface** combined with instructive voice prompts to guide rescuers.

Highly flexible and versatile with advanced capabilities

Reliable for any BLS rescuer, **manual mode**.

**6 push-buttons** allowing users to get the total control of defibrillator.

**Manual Synchronous or Asynchronous** or simply AED

**Monitoring section menu:** been introduced for the management of technical and physiological alarms and signals, according to IEC/EN 60601-2-27

# TRAINING SOLUTIONS

Regular  
(200 x 213 x 71 - 1.56kg)

- Designed to meet the needs of any instructor, it helps your responders learn to use defibrillators in simulated sudden cardiac arrest episodes for an extremely realistic training experience.
- Non-shocking unit that follows the 1, 2, 3-step operations of the Saver One defibrillator and guides responders, with voice prompts in various languages, from ECG analysis until shock and CPR.
- Pre-configured with 10 realistic training scenarios.

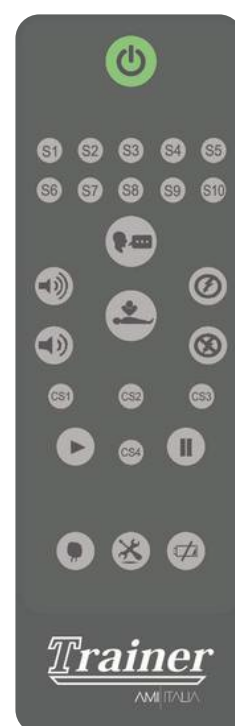

SAVER  
ONE

# TRAINING SOLUTIONS

**SAVER ONE T (SVT-B0959) comes equipped with:**

- 2 set of adult reusable training pads**
- 1 remote contro**
- 1 accumulator with its charge**
- 1 quick reference card**
- 1 carrying case.**
